

Discovering the Power of the OFCHC

We are Stronger Together

Nov. 20, 2024 Stark State College

Why the Ohio Fuel Cell and Hydrogen Coalition?

**Linkage between Industry,
Academia, and Government**

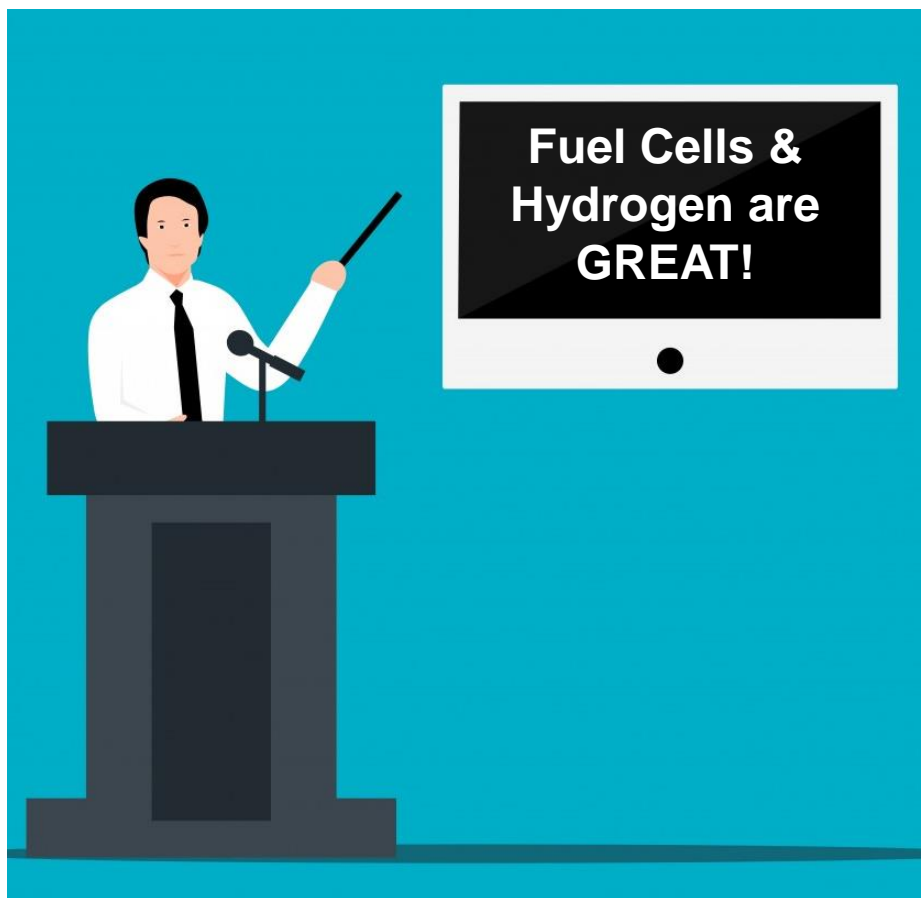

OFCHC brokers relationships in the Fuel Cell and Hydrogen space.

- We have world class knowledge of who is doing what in the space, especially in the Midwest. We know who to connect, and why.
- We enable information that is unknown or difficult to obtain to be shared among the interested parties.
- We foster connections and build critical influencer-relationships that creates economic opportunity or makes the work in a particular entity more clearly understandable and actionable. **We are your advocate.**

We promote the integration of a coordinated, robust fuel cell and hydrogen infrastructure and supply chain.

We promote public awareness about the positive role fuel cell and hydrogen technology can play in creating a better life for us all.

Looking to solve a problem?

Make OFCHC one of your

FIRST contacts !

How we accomplish this

- Yearly Symposium allows members and others to meet and learn about advancements while building valuable relationships.
- Sponsor focused-learning and networking events in areas of interest. Examples – Solid Oxide Forum, Supply Chain Exchange.
- Active since 2002, large institutional memory in the space.

For MEMBERS ONLY

- Create meaningful and productive relationships between members.
- Help with proposals. Partners, support letters, community outreach, and workforce.
- Respond to ad-hoc requests from members for information, connections, and resources.

For MEMBERS ONLY

- Closely monitor developments and funding opportunities such as DOE FOAs in the fuel cell and hydrogen space. Communicate them to members via direct contact and newsletters.
- Members-only web space.

Opportunity to Serve

Opportunity to Influence

**Opportunity to Ensure Success
for H2 and Fuel Cells**

We are Stronger Together!
